

ALL-IN-ONE THERMOPLASTIC TRANSPORT SYSTEM

The Titan trailer is an all-in-one transport system for a thermoplastic application contractor. It's fully customizable with space for single or multiple melting systems and applicators. It will hold all the thermoplastic material you need for a day's work.

Standard Features

- Side Lift Gate
- Ball or pintle hitch
- Lockable battery box
- D-ring tie downs
- Deck mainframe is 7" steel channel
- Diamond plate decking
- Diesel or propane systems

Note: Kettles can be connected for increased melting capacity.

Optional Features

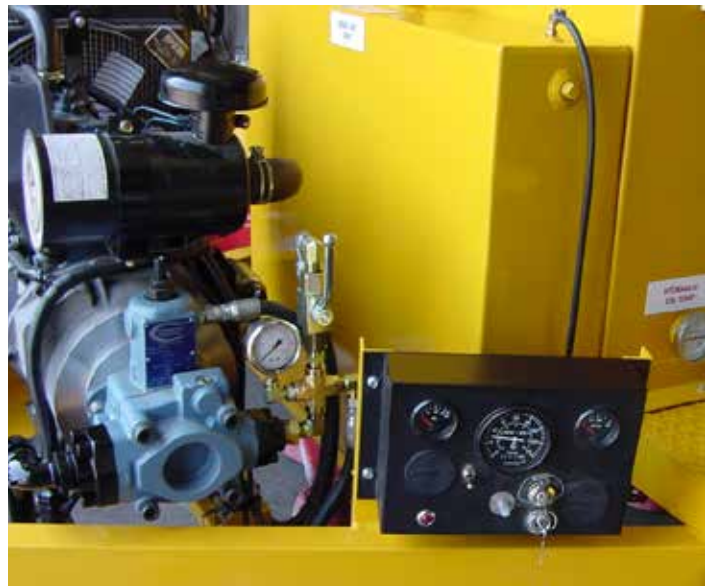

- Safety beacon strobe lights
- Die storage box
- Load straps
- Stake pockets
- Removable side gates
- Tool boxes
- TRI-COOL hydraulic tank
- Fully customizable/multiple configurations
