Introducing the Elite® 2000 Electric Airless Sprayer from Titan®

MINNEAPOLIS — June 20, 2024 — Titan® now offers the Elite® 2000, the newest member of the Titan Elite Series of airless paint sprayers. The versatile one-gun sprayer features Elite Series technology that contractors have trusted for years in a new compact design.

For residential, light commercial and fine finish applications, the Elite 2000 delivers a consistent finish and is easy to operate and maintain. It is outfitted with Titan PermaStroke Technology™ for delivering top performance between 300 and 3000 psi. There is no piston, packings, cylinder or clutch to wear or replace. Maintenance is minimal with only two easily replaceable wear parts, the inlet and outlet valves, which can be quickly changed out in the field.

The Elite 2000 provides top performance at all pressures, even when using smaller tips or spraying coatings prone to shearing. With extremely reliable mechanical pressure control, it is versatile for both fine finish and traditional applications (maximum tip size 0.021-inches). The sprayer's Sureflo™ Pusher Valve guarantees it primes every time and makes it easy for operators to release a stuck lower ball.

“Building on the success of our Elite line of sealed hydraulic sprayers, the new Elite 2000 is packed with proven technologies for a professional finish, minimal maintenance and easy cleanup,” said Chris Noto, product director for Titan. “Built Titan tough, it will meet or exceed contractors’ expectations for a versatile sprayer that delivers consistent results for both paint and fine finish applications.”

Designed to spray up to 100 gallons per week, the Elite 2000 will apply all standard architectural primers, paints, stains and coatings. It comes standard with a Titan RX-80™ gun, 517 HEA tip, 50-foot hose and a flexible siphon for use with one- and five-gallon containers. A rugged built-in skid frame protects the sprayer during transport and at job sites.

The PermaStroke Technology fluid pump in the Elite 2000, and all Titan Elite sprayers, is backed by Titan's WearGuard® Elite lifetime warranty.

The Titan Elite 2000 is available in the U.S. and Canada at professional paint and equipment retailers. MSRP is \$1,373. Visit www.titantool.com for more information.

About Titan

A leader in spraying technology, Titan manufactures and markets a full line of professional-grade sprayers for applying a variety of coatings. Titan products include airless and air powered paint sprayers, fine finishing sprayers, sprayers for applying texture, roofing, corrosion control, protective coatings, and line strippers for sports fields and asphalt. For nearly half a century, contractors and maintenance professionals have relied on Titan products for world-class, end-to-end solutions that are dependable and easy to use. Visit titantool.com.
