Titan® Announces FlexSpray Pro 18V Cordless Handheld Sprayer

MINNEAPOLIS — July 30, 2024 — Titan has introduced the [FlexSpray® Pro 18V](#), the next generation handheld sprayer that allows paint contractors to cut the cord for more freedom on the jobsite. Powered by an AMPShare™ by Bosch® battery system that's interchangeable across multiple Titan sprayers, it's a cordless multi-tool that delivers the power of airless and the control of HVLP in one versatile sprayer.

The FlexSpray Pro 18V is propelled by JetForce™ Technology, which creates atomization power equal to a four-stage HVLP and output equal to an airless sprayer using a 413 tip. The variable speed turbine is powerful enough to spray unthinned latex, and nimble enough to spray lightweight coatings like lacquer and stain with ease.

Additional features and benefits include:

- Sprays latex and oil-based paints and stains
- Two front ends: FlexFinish™ Pro Front End is optimized for higher production on larger surfaces for architectural coatings; FineFinish™ Pro Front End has the control needed for fine finish detail
- Quick Change System allows swapping from FlexFinish to FineFinish front ends with a simple twist
- Intelligent Bosch power management shuts the unit down when entering low battery mode to prevent pattern quality issues
- Provides maximum control with vertical, horizontal and round fan patterns
- Protected battery compartment
- Comes standard with two 4Ah batteries, battery charger, four cleaning brushes, two cup seals, two nozzle seals, one paint filter and a storage bag

"The FlexSpray Pro 18V is a smaller job sprayer that offers power, control and versatility," said Chris Noto, director of products for Titan. "The combination of cordless technology, two front ends and less parts for cleaning make it our best handheld sprayer yet."

Like all Titan Impact sprayers, the FlexSpray Pro 18V will stand up to the toughest ongoing use. It is backed by the best and longest warranty in the industry –Titan's WearGuard® two-year manufacturer's warranty. In addition, the batteries are warranted for three years and the battery charger for five years.

The FlexSpray Pro 18V is available in the U.S. and Canada and at professional paint and equipment retailers. MSRP is \$1,040 in the U.S. and \$1,404 in Canada. Visit www.titantool.com for more information.

About Titan

A leader in spraying technology, Titan manufactures and markets a full line of professional-grade sprayers for applying a variety of coatings. Titan products include airless and air powered paint sprayers, fine finishing sprayers, sprayers for applying texture, roofing, corrosion control, protective coatings, and line strippers for sports fields and asphalt. For nearly half a century, contractors and maintenance professionals have relied on Titan products for world-class, end-to-end solutions that are dependable and easy to use. Visit titantool.com.
