Titan® Announces the Impact X 120 18V: the Industry's First Battery-powered Mobile Spray System

MINNEAPOLIS — May 29, 2024 — Titan now offers the Impact X™ 120 18V, a battery-operated mobile spray system for small residential, light commercial, and fine finish applications. Optimized for low-pressure airless use, this versatile sprayer has three industry-exclusive configurations: it can be carried as a backpack, side-carried or used in a stationary position.

Powered by an AMPShare™ by Bosch® 4Ah battery, the sprayer delivers up four gallons or 1,400-square-feet of coverage per charge. This single battery system works across multiple Titan cordless sprayers being introduced.

Designed to operate at maximum 1,600 psi, the Impact X 120 18V sprays efficiently with both HEA (high efficiency airless) for latex and oil-based paints, and Fine Finish tips for stains, sealers, enamels and urethanes. Spraying at lower pressure reduces overspray by up to 50 percent, extending the life of tips and the sprayer while delivering a superior finish.

Additional features and benefits include:

- Sprays latex and oil-based paints and stains
- Large 1.25-gallon hopper is quick and easy to refill
- Convenient removable backpack straps; integrated tip holder and hose management system
- Intelligent Bosch power management shuts the unit down when entering low battery mode to prevent pattern quality issues
- Protected battery compartment
- Comes standard with Titan RX-80 spray gun, 517 HEA tip, 312 fine finish tip, two 4Ah batteries, battery charger, grounding cable and a 9-foot hose (unit supports up to 50-foot hose; available separately)
- Sprayer is compatible with all standard airless accessories, such as reach tools and rollers

“Our new Impact X 120 satisfies industry demand for a comfortable cordless backpack-style sprayer that offers operational versatility and peak airless performance,” said Chris Noto, director of products for Titan. “No matter what the job entails, this spray system will meet paint and fine finish contractor needs for years to come.”

Like all Titan Impact sprayers, the Impact X 120 will stand up to the toughest ongoing use. It is backed by the best and longest warranty in the industry – Titan’s WearGuard® four-year manufacturer’s warranty. In addition, the batteries are warranted for three years, and the battery charger for five years.

The Impact X 120 18V is available in the U.S. and Canada and at professional paint and equipment retailers. Visit www.titantool.com for more information.

About Titan

A leader in spraying technology, Titan manufactures and markets a full line of professional-grade sprayers for applying a variety of coatings. Titan products include airless and air powered paint sprayers, fine finishing sprayers, sprayers for applying texture, roofing, corrosion control, protective coatings, and line strippers for sports fields and asphalt. For nearly half a century, contractors and maintenance professionals have relied on Titan products for world-class, end-to-end solutions that are dependable and easy to use. Visit titantool.com.
