

POWRMAX™ 605

ELECTRIC ROTOR STATOR

POWER UP

The PowrMax 605 electric rotor stator sprayer delivers the performance large jobs require with the versatility to spray up to 6mm aggregated materials. Perfect for applying EIFS, stucco, mortar, fireproofing, adhesives, chinking as well as joint compound and other interior/exterior textured finishes.

Powerful Performance

- Powerful performance spraying up to 5 GPM, 580 PSI and the ability to deliver materials using up to 175' of hose
- Rotor stator technology handles aggregated materials up to 6 mm with ease
- Heavy duty sprayer for large jobs
- Sprays fibered, aggregate and water-based materials (no solvent-based coatings can be applied)

Smart Design

- Large 12-gallon hopper allows for more spraying and less refilling
- Portable footprint designed to fit on standard scaffolding
- Quick and easy clean-up with powered stator removal
- Automatic pressure relief for safer operation and to remove pressure spikes allowing for a better finish.
- Requires 12 CFM air compressor.

POWRMAX™ 605

Specifications

Max. Delivery	5.0 GPM (19.0 LPM)
Max. Operating Pressure	580 PSI (4.0 MPa)
Air Consumption	12 cfm
Power	230V, 16 amp, Single-Phase
Weight	138 lbs.
Plug Type	NEMA L6-30 Plug
Part Number	2405070

Accessories

DESCRIPTION	PART NO.
Automatic Ball Valve	2334115
3' Extension	2334123
5' Extension	2339400
6.5' Extension	2334124
Adhesive Nozzle	2335394
Injection Nozzle	2335388
19 mm Mortar Hose 30'	2325193
27 mm Mortar Hose 30'	2325197
6' Whip Hose	2334131

DESCRIPTION	PART NO.
19 mm Cleaning Ball	342330
27 mm Cleaning Ball	342331
Hose Holder	342215
Cleaning Brush	342329
90° Spray Head	2337672
Heavy Aggregate Stator (Green)	2385520
Heavy Aggregate Rotor (Green)	2385532
Standard Stator (Yellow)	348315
Standard Rotor (Yellow)	348316
